

pop & what?!

shop

Pop & shop with a Convenience CRESBI crate system that's great for carrying groceries or for anything! Reactions range from "WOW" and "cool" to "I want one now!" They're unique and an easy sell for many reasons:

- Collapsible - easy to carry & store in the car
- Reusable - saves money, extremely durable
- Environmentally friendly - replaces plastic bags*
- Stackable - saves space & products
- Great idea for carrying food, plants, etc
- More sanitary - dishwasher safe**
- Faster checkout - shop with the crate open and place items in it with the barcodes up. At checkout the clerk can use a handheld scanner to scan products right in the crate.

"In just a few short weeks almost \$400 was raised for Alzheimer's research just by telling others about CRESBI systems. I'd definitely recommend CRESBI for other organizations interested in a versatile, sustainable product that practically sells itself!"

*Julie Wilson, Manager Patient Support Services
St. Elizabeth Healthcare, Grant County KY*

* In one year, one shopper gets an average of 500 plastic bags. One CRESBI crate can replace up to 6 bags, depending on what you're buying.

** Reusable nonwoven polypropylene bags will be a worse problem: they harbor bacteria because they are hand-wash in cold only, they fall apart easily, and virtually no recycling centers will take them.

*** Order crates with straps (or keychains or lanyards) with your logo and the \$65 setup fee is waived! 200 crate minimum.

it's the best green fundraiser ever!

Imagine selling a product everyone can use every day that also makes a positive impact on the environment!*

Make more "green" by selling this "green"!
