

Sustainable Produce Container

PATENT PENDING

100%
Recyclable!

"I'll pay extra for this packaging!"

"Thank you for doing this!"

"I hope you replace ALL the clamshells here, I'm sick of all this plastic!"

actual Kroger in-store customer comments

Consumers are fed up with packaging they can't recycle and tired of billions of plastic clamshells ending up in landfills each year. From mushrooms to microgreens, berries to cherries, the Sustainable Produce Container meets this demand for better packaging:

- 100% recyclable, biodegradable cardboard; Kraft version also certified compostable
- Sizes: Half Pint, Square Pint, Low Profile Pint, 1.5 Pint, Quart, 1.5 Quart, 2 Q & 3 Q
- Earth-themed vents provide excellent air flow & product visibility
- Reversible Kraft/white version has high wet strength for temperature transitions
- Competitive pricing against plastic clamshells & punnets in high volumes
- Easy to hand-form or can lease high-speed automated folding machine
- Hinged lid is simple to lock or open, can glue seal in volume production
- Save retail space since they can stack higher than clamshells or punnets
- Save warehouse space and freight costs since containers ship flat
- Room on the lid for a label or stamp; your story, recipes, or tips on the bottom
- Custom print the entire box and eliminate all nonrecyclable labels
- One master produce case will hold all container sizes
